

My Name as an Acrostic Poem

Today, we are going to write acrostic poems and our names will be the theme of the poem. To help us write them, we are going to pass around sheets with names on them. Write down one positive word that you think of when you read the person's name.

When we are finished, get the sheet that has your name on it. Read all of the lovely, positive comments that your class mates have written about you. Use these to help you write your very own acrostic poem. Choose the correct template depending on the letters in the names.
